From The Authors

The purpose and goal of the Orrell Family Association can best be told from the first page of our website:

The purpose and goal of the Orrell Family Association website is to document and share genealogical data on the Orrell surname from around the world and all periods of time. This includes various spellings of the surname: Orrell, Orrel, Orell, Orrill, Orril, Orill, Orrells, Orrills, Orel, Oril, Orrall, etc. It is our belief that a true genealogist never completely finishes his research. Within any family line there are continual births, deaths, and marriages. We will never stop researching the Orrell family and its allied lines. One's family tree is not composed of only direct line ancestors. All of your progenitor's descendants are your aunts, uncles, cousins or their spouses. They are all important. New researchers, or even curious onlookers, often have additional information and documents that have eluded even the most seasoned genealogist. It is our hope that such individuals visiting our website will share their findings with us. The Charter Members of the Orrell Family Association believe that all of our genealogy data, documents, and photos do absolutely no good to anyone else when they are stored on our computers or locked up within our file cabinets. We do not view these items the way a pirate might view a treasure map. We believe in sharing our genealogy treasures with others. It is our hope that everyone researching the Orrell surname feels the same way and will graciously share their information with us.

In 1994, Robert Stanley Orrell published "The Orrell Family in the U.S. Census", on which our previous book "Orrell-Orrill Family As Documented In The U.S. Census, 1790-1920" was based. Since that book (published April, 2002), the 1930 U.S. census was released. Many of the records found in this book were made available through Ancestry.com's wonderful collection of census images and indexes.

Each state's name appears in the upper left hand page. An index is at the end of this book.

The following format has been used in this book. Let's use the following entry as an example:

3957	Orrill, Sarah F.	1 Snipkins 2 Orrill 2 Robertson 3 Sally 4 Orrell	4492	HH, Richmond City, age 70, b VA, p b VA, widow, dau of Frank Snipkins & Eliza ?, m#1 John L. Orrill, m#2 Syndar Jennings Robertson
----------------------	------------------	--	------	--

The columns indicate the following:

Column #1 - Image number (described below)

Column #2 - Person's name. Remember that many of the images are listed according to the

way the name was spelled in the actual record. Therefore check for alternate spellings of the name. Also be advised that females might be listed under their maiden or married names.

Column #3 - You will see different codes: 1 - A woman's maiden name. 2 - A woman's married name. 3 - A person's nickname. 4 - Name as it appears in this record.

Column #4 - RIN number. Bob Orrell maintains the master Orrell - Orrill genealogy database. Each person in the database is assigned a Random Identification Number (RIN) by the genealogy software program. This helps us in locating the person and connecting families.

Column #5 - Notes Field. Most records contain some sort of note. Some of this might be cryptic at first; however you should be able to figure it out. The phrase 'd of', 's of', 'sp of' mean 'daughter of', 'son of', and 'spouse of'. In census records the phrase 'HH' means 'Head of Household' and 'ED' means 'Enumeration District'. At the beginning of census records you will generally see the county in which the record was found. At the end of many of the census listings you find 'w *followed by a name*' Therefore 'w Robert John' would mean 'with Robert John Orrell (*or another spelling*)'.

NOTE FOR COLUMN 1: The left column on the index contains the image number. That image number corresponds to the image on the CD-ROM. The image number also corresponds to the location of the image on the Orrell Family Association Website. For example, image # 3597 is located on the CD-ROM as 3597.jpg. Using Windows Explorer merely find that image number on the CD-ROM and double click the name. The image will open in your default image viewer program.

The image number tells where the image is located on the website. Image #3597 is located at <http://www.orrellfamily.com/paf/scanned/1234.jpg>. You can view this image on the website by opening your Internet web browser and typing the following in the web address line:

<http://www.orrellfamily.com/paf/scanned/3597.jpg>

Merely substitute the number above (i.e. 3597) with the number of the image you are interested in to find other images. Also this image is included on the accompanying CD. Go to the folder named 'images'. The file named 3597.jpg is the actual image used in this book.

There are 464 scanned images from the 1930 U.S. Census in this book, on the accompanying CD, and within the Orrell Family Association Website.
